

# Grammars user manual

The Grammars page is divided into two sections: navigation (left) and the welcome intro page to the (right).

## Search a Grammar

The navigation part consists of the search bar with button at the right and by the all Grammars positioned below.

In the search bar, the user can enter the name of the grammars he wants to find or the code of the sign-language that includes the grammars.

The user has two search modes available:

- Terms: search by name of the grammar.
- SL Code: search by sign-language code.

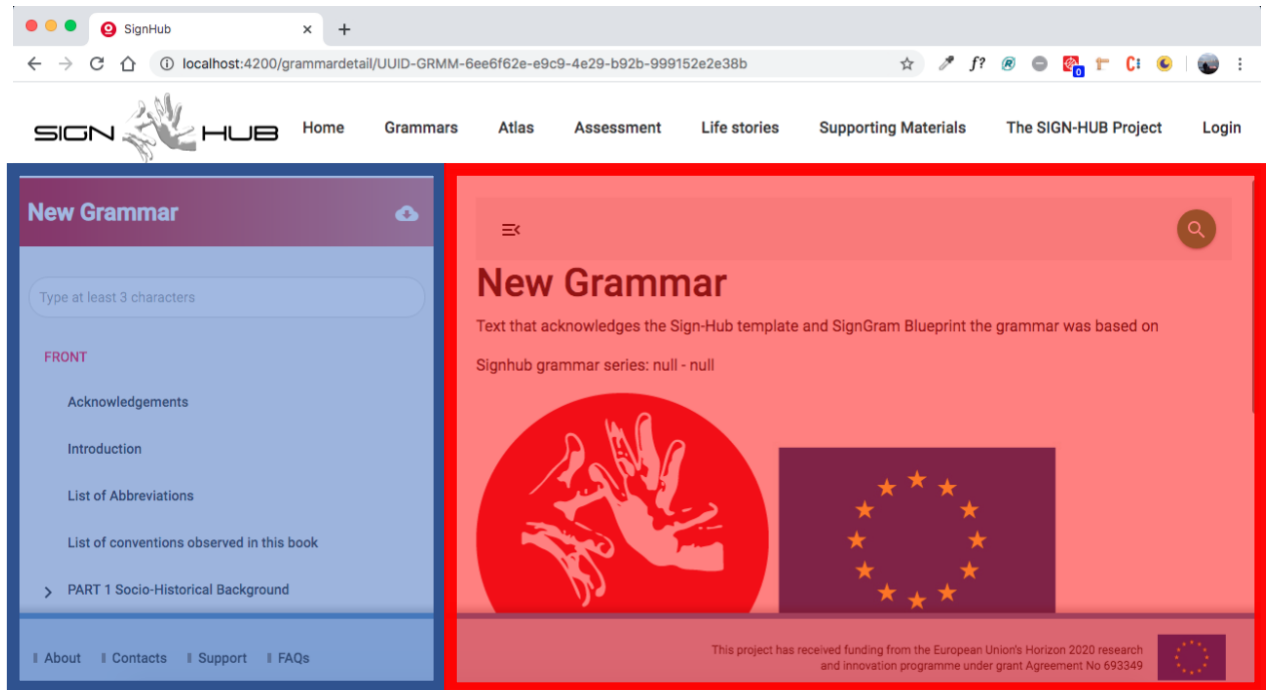

The modes are chosen using the button located on the right of the bar.

## Download a grammar

The user can download the grammar by clicking on the button  positioned next to each grammar.

## Selection of Grammars

The user can click a grammar by the navigation part and then will be redirected to the grammar detail page.

Here the user can read the grammar using the navigation part as index.  
The index can be filtered by a search bar positioned at the top of navigation part.
