

Streaming user manual

The Streaming page (Life stories) is divided into two sections: navigation (left) and the media part(right)

Search a multimedia

The navigation part consists of the search bar with button at the right.

In the search bar, the user can enter the name of multimedia file he wants to find or the creation date of the media file that he wants to find.

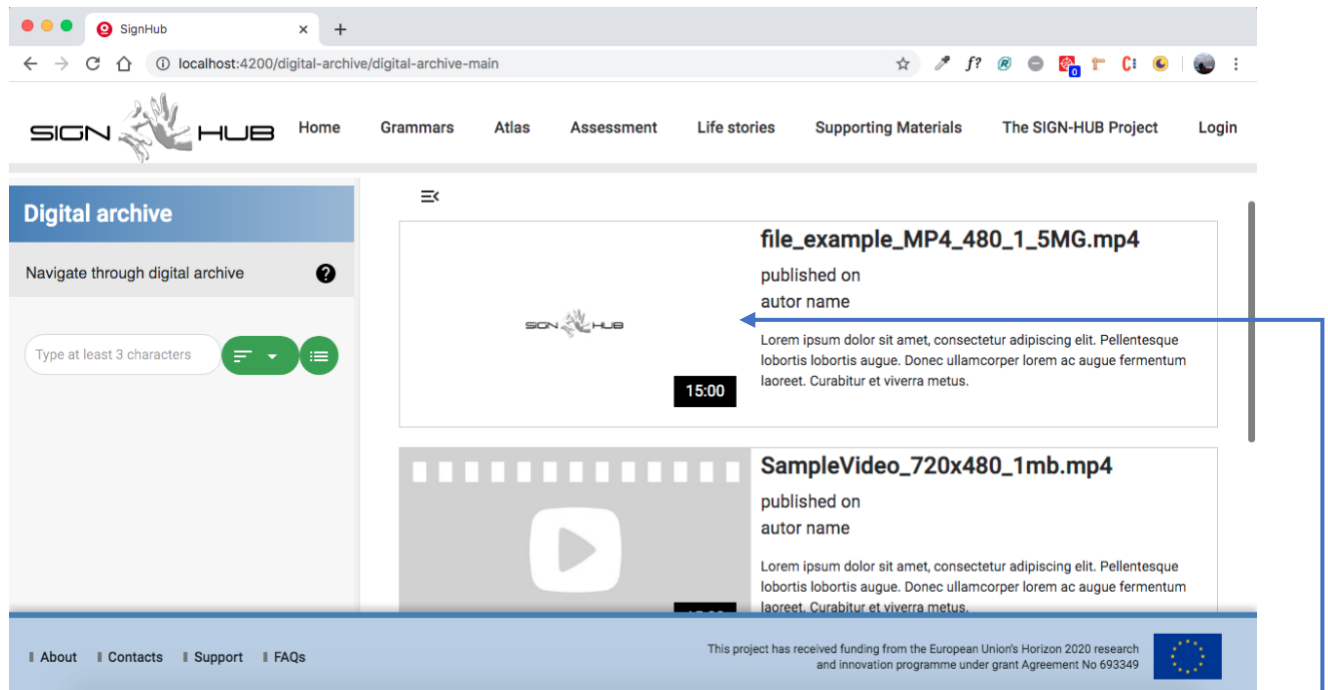

The user has two search modes available:

- Name: search by name of the media file.
- Date: search by creation date of the media file.

The modes are chosen using the button located on the right of the bar.

Split view mode

The user can click on the button  positioned next to search bar for the split-view. The view will be as follow:

Click on media

The user can click on media at the right for open it. The view will be as follows:
